

**STATE UNIVERSITY OF NEW YORK
COLLEGE OF TECHNOLOGY AT CANTON**

2016 CAMPUS STATEMENT

Originally founded in 1906, as the School of Agriculture at St. Lawrence University, SUNY Canton is the first postsecondary, two-year college in New York authorized by the Legislature. In 1987, the University's Board of Trustees authorized the College's present designation as State University of New York College of Technology at Canton. In 1997, SUNY Canton received baccalaureate degree granting approval from the SUNY Board of Trustees and the New York State Governor, beginning a new era of growth for the College.

Perfectly suited as a learning environment, the College is comprised of 382 acres located in a semi-rural setting along the Grasse River in St. Lawrence County. The College is comprised of 20 major buildings that fit well into the surrounding landscape. Academic facilities include five classroom buildings, which contain many specialized labs for practice in applied- and technology-based disciplines. Augmenting the academic facilities are five residential buildings in addition to the dining center, campus center, athletic center, and library nestled into the hillside overlooking the Grasse River.

Students learn from faculty who possess both outstanding academic credentials and sound technical experience. Dedicated to providing varied educational opportunities within the technologies and sciences, SUNY Canton offers 23 majors leading to Bachelor degrees, 21 associate degrees and 5 one-year professional certificate programs. With the Bachelor's degree programs, students are staying longer than when the school exclusively offered Associate degrees and former students are returning to earn their four-year degrees. SUNY Canton Online continues to experience dramatic growth as well. SUNY Canton On Line features more than 200 courses online each semester and 10 bachelor's degrees are available online, allowing students to enroll from anywhere with Internet access.

In 2007, the College's athletic teams joined the National Association of Intercollegiate Athletics (NAIA), enabling students to compete in their respective sports for four years. The National Collegiate Athletic Association (NCAA) Division III Management Council announced that SUNY Canton officially completed its provisional membership process and became full-time members of NCAA Division III, effective September 1, 2015. SUNY Canton completed its provisional status in just three years. Colleges typically must go through four years of provisional status along with an exploratory year before they are recommended for active membership. SUNY Canton applied for and was granted a waiver to consolidate years three and four of the process. In the past four years, SUNY Canton has added five new sports to their athletics program offerings. The athletics department has seen tremendous growth during this time, doubling the number of female student-athletes, and increasing its total number of student-athletes from approximately 150 to nearly 300. The college sponsors intercollegiate teams in men's and women's soccer; men's and women's cross country; women's volleyball; men's golf; men's and women's ice hockey; men's and women's basketball; men's baseball; women's softball; and men's and women's lacrosse.

Recent improvements to facilities include the ongoing renovation of Chaney Dining Hall, Wicks Hall Nursing Suite Renovation, Heritage Hall East Wing, replacement of utilities including fuel storage system, natural gas mains and site lighting. Several minor rehab and repair projects are ongoing to address deteriorated interior and exterior conditions as well as mechanical systems for energy efficiency. In February 2007, the College completed a Facilities Master Plan (FMP) which was later complimented in September 2011 in which the College in cooperation with the State University Construction Fund (SUCF) completed a more comprehensive FMP to further guide growth through the year 2023. The College continues to work with the New York State Power Authority (NYPA) to complete an Energy Master Plan. Combined, the findings and recommendations of these documents are utilized as a guide to address / prioritize the College's needs. In coordination with SUCF, the College is moving forward with various projects including replacement of water mains, site lighting, storm drainage, rehab of stone veneer retaining walls, replacement of building envelope at Dana Hall, Payson Hall and Cooper Service Building and renovation of Chaney Dining Hall. Complete renovations of Chaney Dining Hall, Dana Hall, Payson Hall and the addition of a 2nd floor within the existing footprint of the Miller Campus Center for Student Support Services remain among the Colleges priorities.
